SKILLS

Languages: C++

Skills: HTML, CSS, JavaScript, NodeJS, DBMS

Frameworks: Express.js, MongoDB, React, NextJS

Soft Skills: Problem-Solving ,Team Player, Adaptability

PROJECTS

- Digital Phone Directory | C++ (Custom Data Structures) Jul' 26
 - Built an offline phone directory in C++ using a custom Hash Table for fast contact search by name and phone number.
 - Implemented Hash Table, Trie, Stack, Circular Queue, and recursive Merge Sort for searching, autocomplete, undo, recent contacts, and sorting.
 - Improved contact organization, fast searching, prefix-based retrieval, and efficient handling of directory operations.
- Traffic Management System | HTML, CSS, JavaScript, NodeJS, MongoDB Jun' 26
 - Developed a smart traffic management system to monitor and control vehicle flow in urban areas using automated signals and real-time monitoring.
 - Added support for emergency vehicle prioritization and traffic analysis to help improve overall road safety.
 - Improved traffic monitoring, road safety, and vehicle flow using a full-stack web application.
- Resume Analyser | React, TypeScript, Tailwind CSS, Gemini API May' 26
 - Built an AI-powered resume analyzer to evaluate resumes against specific job descriptions.
 - Integrated Gemini AI to generate ATS scores, identify skill gaps, and suggest improvements.
 - Enabled automated resume analysis through PDF parsing and an interactive, responsive dashboard.

TRAINING

- Fundamentals of Data Structures: Learn, Apply and Build Projects Jun' 26 – Jul' 26
- Centre for Professional Enhancement, Lovely Professional University
 - Learned and implemented core data structures including arrays, linked lists, stacks, queues, trees, and graphs.
 - Applied data structure concepts to solve practice problems and build small hands-on projects.
 - Completed the program and strengthening problem-solving and coding fundamentals.

CERTIFICATES

- Database Management System Part - 1 | Infosys Aug' 26
- Object Oriented Programming in C++ | Neo Colab Jul' 25 – Jan' 26
- The Generative AI Workshop | AWS Feb' 25

ACHIEVEMENTS

- Problem Solving Practice Aug'26
- Solved 50+ LeetCode DSA problems, strengthening problem-solving skills.
- Led a Successful Group Presentation Dec'24
- Led a group presentation for the team using PowerPoint on the topic of SWAC analysis.

EDUCATION

- Lovely Professional University Punjab, India
- Bachelor of Technology Aug' 24 – Present
- Computer Science and Engineering, CGPA: 7.5
- Kendriya Vidyalaya School Naharlagun, Arunachal Pradesh
- Intermediate Mar' 22 – Apr' 24
- PCM; Percentage: 75
- Percentage: 81.8
